

Make proactive decisions & plan your business for maximum success

Designed and tuned for your SAP Business One environment

You've got questions,
We've got answers.

What's the problem?

As an SAP B1 user, are you finding it difficult to get the right information

- at the right time?
- without having to wait hours or days?
- or having to go ask someone with the knowledge?

Why do you need it?

- Simple, robust and made for your business
- Quick, easy and business user-friendly
- Designed to instantly get you answers to make the right decisions
- Leverage your investment in SAP B1

What's the solution?

- SAP Business One Quick Start powered by NewIntelligence and IBM Cognos Analytics
- Analytics sitting atop your SAP B1
- Out-of-the-box: we've done the thinking for you
- Fixed-cost, at an affordable price
- Not just another expensive solution

How can we get you there?

- Easy and painless to implement
- Get up and running in just 2-3 weeks
- We will train all your users to use it
- Add capability on your own without 3rd party assistance

SAP Business One Quick Start, powered by NewIntelligence

Connect with us for a free, live demonstration of our solution.

NewIntelligence is a privately held firm founded in 2008 with offices in Montreal and Toronto. As an IBM Silver Business Partner, we specialize in Business Analytics solutions for SAP Business One clients.

Instead of building your own analytics infrastructure, this out-of-the-box Business Analytics Solution for SAP Business One provides you with an environment adaptable to your evolving business needs.

With NewIntelligence SAP Business One Quick Start, your organization can better understand, anticipate and shape business outcomes.

IBM Cognos Analytics capabilities provide:

- Faster answers to business problems from highly visual, interactive dashboards
- Easier access to game-changing insights with interactive data visualizations
- Smarter decisions that drive better outcomes
- Powerful reporting and analysis – create and analyze sophisticated reports & dashboards
- Trusted data and “one version of the truth” for more consistent decisions
- Fast and easy to implement for rapid ROI

The solution covers five areas of the Order Book:

Quotes, Orders, Invoicing, Inventory, and Purchasing

Software includes: IBM BI Administrator, IBM BI Power User, NI ICI license.

Deliverables include: Project kickoff, installation & configuration, and user training.
